SERVICE RETIREMENT BENEFIT FORMULA

2% x Years of Credited Service x Average Final Compensation (AFC)

If the member is eligible for early retirement, pension shall be computed like a regular retirement and reduced 5% for each year below 55; 4% for each year below 50; 3% for each year below 45; and 2% for each year thereafter.

If a member has at least ten years of credited service as a firefighter, police officer, adult corrections officer, investigator of the Department of the Prosecuting Attorney, investigator of the Attorney General's Office, narcotics enforcement investigator, staff investigator of the Department of Public Safety, or a water safety officer, the retirement pension is (2 ½ % x Years of Credited Service x AFC). However, the last five or more years prior to retirement must be credited service in these capacities.

AVERAGE FINAL COMPENSATION

Average Final Compensation (AFC) is the average annual pay or salary including overtime earned by a member during the three highest twelve-month periods of creditable service excluding any lump sum vacation pay. For those employees who were members before January 1, 1971, AFC is the average annual pay or salary earned during the five highest twelve-month periods of creditable service including any lump sum vacation payment.

SICK LEAVE CREDIT

If a member has at least 60 days of unused sick leave at retirement and leaves government service in good standing, the unused sick leave will be converted to additional service credit at the rate of one additional month of service for each 20 days of unused sick leave. Any remaining balance of ten or more days will provide one more month of service credit.

Firefighters, police officers, adult corrections officers, investigators of the Department of the Prosecuting Attorney, investigators of the Attorney General's Office, narcotics enforcement investigators, staff investigators of the Department of Public Safety, and water safety officers can exceed their 80% benefit limitation with unused sick leave credit.

HOW TO APPLY FOR RETIREMENT BENEFITS

Any member who qualifies for service retirement may retire by filing an application with the ERS. Applications are available on the ERS website at <http://ers.ehawaii.gov> or by calling the ERS office.

Counseling and assistance in completing the application form are available at the ERS office by appointment. Group filing sessions are scheduled periodically throughout the year.

HOW TO APPLY FOR RETIREMENT BENEFITS (Continued from page 2)

Retirement applications must be notarized. Notary services are provided at all ERS locations at no charge. Your retirement date must be the 1st of the month except for December when retirement can be either the 1st or the 31st of the month.

An application may be filed with the ERS office as early as 150 days before but not less than 30 days before the retirement date.

In the event a member dies after filing a retirement application but before the member's retirement date, or if death occurs within one year of retirement, the designated beneficiary may elect to receive the survivor benefit for the option selected by the member, or the ordinary death benefit (lump sum payment or Option Two survivor benefit).

A member is restricted to filing only three service retirement applications. The first two may be cancelled prior to the effective date of retirement, however, withdrawal of the third application is not allowed, and retirement will be mandatory on the date specified in that application.

The ERS must provide written notification of a member's retirement date, option selection, and beneficiary designation to the member's spouse/reciprocal beneficiary.

RETIREMENT ESTIMATES

Members who do not have serious intentions of immediate retirement may use the retirement calculator available on the ERS website which can be found at <http://ers.ehawaii.gov> (select Benefits Calculators from the right menu bar). The calculator will provide a reasonably accurate estimate of retirement benefits under all options.

POST RETIREMENT INCREASES

Every retiree's basic retirement pension is increased by 2 ½ % on each July 1st, beginning the calendar year after retirement. The 2 ½ % post retirement increase is based on the original retirement pension and is not compounded. This is a cumulative increase without a ceiling.

TAXATION OF RETIREMENT BENEFITS

Retirement pensions are subject to Federal income taxes but are exempt from Hawaii State income taxes. The ERS will provide the necessary tax information by January 31st of each year.
