Each year, the federal government allocates hundreds of billions of dollars for programs and projects nationwide based on the results of the census. In 2016 alone, Hawaii received $3.68 billion through just 55 large federal spending programs. Federal funding is used to improve public infrastructure such as schools, roads and public transportation, and for safety net programs such as Medicare and Medicaid. Funding for these programs likely help you and your loved ones during your retirement.

Because major programs use the results of the census to distribute funding, an undercount of Hawaii’s population means the loss of money needed in our communities. The best way to prevent an undercount is to make sure everyone responds to the census when they receive their invitation in the mail. In the 2010 Census, Hawaii’s response rate was 68 percent, which was lower than the national average of 74 percent. The Neighbor Island response rate was only 54 percent. Hawaii’s population may have been undercount in the past censuses, because when you don’t respond to the census, you increase your chances of not being counted.

The census also determines each state’s political representation in the House of Representatives, so an accurate population count will maintain Hawaii’s representation in Congress. State and local officials also use census counts to draw boundaries for congressional districts, state legislative districts, and school districts.

In March 2020, expect an invitation in the mail for your household to respond online to the 2020 Census questionnaire. You may also respond to the questionnaire by phone or mail. By filling out your 2020 Census questionnaire, you are helping the state gain more representation, more funding, and a greater understanding of our population’s demographics.

If you would like to know more information about the 2020 Census, you can visit the Hawaii Government Complete Count Committee website at http://census.hawaii.gov/census_2020/hgcc/. Your ohana counts!

Submitted by the Hawaii Government Complete Count Committee
Message from the Executive Director

Honoring Trustee Jackie Ferguson-Miyamoto

For many years, research covering publicly listed and traded companies has shown that superior corporate performance and increased shareholder value are directly linked to effective board governance. The issue of effective governance is receiving increasing attention in the public pension space as recent research supports the finding that plans evidencing characteristics of “good governance” as compared to certain select measures of effectiveness, produce better and more responsive plan designs, overall higher funding levels and even better investment returns as compared to those plans lacking the relevant attributes. Attributes said to affect board governance” as compared to certain select measures of effectiveness, produce better and more responsive plan designs, overall higher funding levels and even better investment returns as compared to those plans lacking the relevant attributes. Attributes said to affect board effectiveness are size and responsibility of the board, trustee tenure and skills, committee structure, leadership and level of engagement. To these measures I would add focus on and loyalty to mission, integrity and impact.

A scoring of these factors allows for the development of a custom measure that I’ll call an “effectiveness quotient.” The ERS Board of Trustees, as a group, ranks highly in the context of each relevant measure. But, no single trustee ranks higher than retiring trustee Jackie Ferguson-Miyamoto. When Jackie retires at the end of this year, she will have established the record as our longest serving trustee. During 24 years with the system, Jackie has served as chairwoman on multiple occasions and has chaired numerous committees. She helped to steer the fund through the pension reforms instituted in 2012, and has guided our legislative initiatives through her chairmanship of our Administrative and Legislative Committee.

While serving as the president of the Hawaii Government Employees Association (HGEA), Jackie viewed her role as becoming the voice of ordinary citizens and members. It is fair to say that many viewed Jackie as the “friend on the inside” who would advocate for all. Jackie has been intimately involved in virtually each of our major accomplishments over the years and has freely offered her wisdom and passion. No matter who replaces her on our board, our “effectiveness quotient” is likely to dip this coming January. I ask that you join me, her board colleagues, the ERS staff and its membership in thanking Jackie for her selfless public service. We’re wishing her well in retirement.

Mahalo,

Thom Williams

2020 Pension Payment Schedule and Notices

Payment Date: Pension payments are paid on the 15th and/or the end of the month. If any of these dates fall on a weekend or a holiday, the payment date will be the last business day prior to the weekend or holiday.

Federal Income Tax Withholding: Payments from the ERS are subject to federal income tax withholding unless you elect to not have taxes withheld. You may change your withholding election by completing IRS Form W-4P, Withholding Certificate for Pension or Annuity Payments, prior to a payroll processing date. Refer to the tax withholding tables for the approximate federal income taxes to be withheld.

Direct Deposit: Complete Form ERS-210, Direct Deposit Agreement, to change the bank account and/or financial institution for your direct deposit. Please keep your original account open until the first ERS deposit is made to the new account. Closing your old account too early will delay the timely receipt of a pension payment.

Mailing Address: Complete Form ERS-211, Mailing Address Change, to update your address to ensure you receive Form 1099-R tax statements, annual July pension statements, quarterly Holomua newsletters, and ERS correspondence.

Online Info Update

The ERS has updated its website with member information, including creditable years of service and accumulated contributions, through December 2019. The updated online information for active members is at ers.ehawaii.gov, click on Member Information in the right column.

Retirement information and account balances may vary between members due to payroll lags and adjustments. In addition, for all members paid through the State of Hawaii HIP System, there is a delay in the posting of your contributions to your ERS account due to reporting issues. To report any discrepancies with your account information, click on the link to the Correction Form, and print and mail the completed form to ERS with a copy of your “My Retirement Account” screen print. Once we have completed our research, corrections will be applied and you will be notified of any changes.
Despite choppy markets, the ERS ended the third quarter well above most major global benchmarks, preserving the portfolio value and continuing to maintain our path toward full funding.

The strong portfolio performance masks some of the summer drama. The fallout from trade wars, tariffs, Fed speak and mixed macro data has led to the market pricing in a higher probability of a recession.

One of the strongest recession predictors is the inversion of the yield curve—typically, the yield curve is upward sloping (higher rates for longer maturities). An inverted curve is the opposite—downward sloping. In August the yield on the 10-year Treasury was 1.623% below the 2-year yield of 1.634%, meaning that the yield inverted. A similar phenomenon was already occurring between the 10-year and the 3-year since March. The 2s-10s inversion has historically been a solid predictor of a looming recession (it has inverted before every U.S. recession since the ’50s). On average, the 2s-10s inversion occurs 22 months in advance, which would indicate spring/summer of 2021. However, note that 22 is only the average, recent recessions have not occurred exactly 22 months following the inversion.

Many pundits recognize the inversion but ask “this time is different?” It could be. Short-term rates are low partly because the Fed has driven them lower artificially. On the long-end of the curve (10 year), investor fear is driving the flight to quality trade, which is driving down rates. To further confuse the issue, the economy is still on stable footing—unemployment remains low (lagging indicator) and consumers are still spending (leading indicator). However, the yield curve tends to invert when data looks good!

What does this mean for our investment portfolio? First, this is not the first time our team has experienced challenging markets. The 1970s were one of the worst decades for the economy and investing. The ’90s exhibited an exuberant economy but also suffered the dotcom bubble burst. Our entire investment team navigated 2008. We have experience investing in challenging environments; each one is different and each one brings unique challenges. More than 13 trillion of government bonds are trading at negative yields, equity valuations are stretched, and credit is near record-breaking tightness.

We are now entering a world of lower forward-looking returns combined with above-average dispersion (i.e., the range of outcomes is wider/riskier). We expect the next 6-18 months to be volatile with increased risk to the downside. The Board and Staff anticipated this years ago, restructuring the portfolio to capitalize on buying opportunities when markets cheapen while also protecting the portfolio against massive equity sell-offs. When private markets look challenged, we must depend on our team to source the best investments in illiquid markets that will provide income-like returns, maintain positioning during turbulent markets, and capitalize on our ability to invest in long-lived assets unlike other investors with shorter horizons. At the same time, we do not lose track of the important role that we can play here at home in Hawaii while still seeking the most valuable investments on a risk-reward basis. While we anticipate that our portfolio will maintain a consistent allocation routed in economic principles and time-tested strategies, we also remain committed to sourcing the best ideas wherever we may find them across the globe to bring incremental return and stability to our portfolio.

Thank you again for the honor of serving as your Chief Investment Officer.

— Elizabeth Burton

Year-end tax information to be mailed

If you received benefits from the ERS during 2019, your 2019 Form 1099-R will be mailed to your home address by Jan. 31, 2020. Reprint/duplicate Form 1099-R requests will only be processed after Feb. 6, 2020 to allow time for mail delivery. To submit an address change, please complete the Mailing Address Change form on our website at http://ers.ewa-hawaii.gov (Resources>All Forms>General>ERS-211 Address Change).

The ERS is a “government defined-benefit pension plan”, therefore all benefits paid by the ERS are classified as “pension” benefits and reported to you on the Internal Revenue Service (IRS) Form 1099-R. For terminated members, this benefit includes a refund of contributions; and for retirees, this includes option refund payments and disability benefits. (Certain retirees receiving service-connected disability benefits will receive the Annual Non-reportable Benefit Notice.) If you have a professional tax advisor, accountant, and/or tax preparer, it is we suggest that you make this information available for their review.

In most cases, you will receive only one Form 1099-R. However, you may receive several different 1099-R forms if you:
1. took a refund option with a rollover to another retirement account;
2. became age 59½ during 2019, or
3. received benefits as a retiree and as a beneficiary.

For more information you may want to review
• the Retiree FAQ section of the ERS website http://ers.ewa-hawaii.gov (Retirees/Retirees FAQs)
or
• information on the IRS website (http://www.irs.gov) such as IRS Publication 575, Pension and Annuity Income, the instructions for IRS Form 1040 U.S. Individual Income Tax Return.

How is the IRS Form organized?

The 1099-R is a four-part form with instructions on the back of the form. Copy B is to be used in preparing your federal return. Retain Copy C for your records and keep it in a safe place for future financial purposes. You may disregard Copy 2 since all benefits received from the ERS are exempt from State of Hawaii income tax. If you are living out-of-state, you should consult a qualified tax preparer regarding the tax laws in your area.

Your 2019 IRS Form 1099-R will include the following information:

Box 1 - Gross distribution: Total benefit payment(s) the ERS paid to you in calendar year 2019 per IRS Distribution Code (in Box 7).

Box 2a – Taxable amount: The taxable portion of your benefit payment(s) on this 1099-R.

Box 4 – Federal income tax withheld: The amount of federal income tax the ERS withheld from your benefit payment(s), if any, during calendar year 2019.

Box 5 – Employee contributions/Designated Roth contributions or insurance premiums: The portion of your gross benefit payment(s) not subject to taxes and the difference between Box 1 and Box 2a. This is the amount of after-tax contributions that the IRS allows you to recover tax-free for the year.

Note: Box 5 is only applicable to certain retirees of the Contributory or Hybrid Plan who made contributions on an “after-tax” basis to the ERS.

Box 7 – Distribution code(s): Denotes the type of payment you received. The IRS uses this code to determine the proper tax treatment of your benefit payments.

The IRS Distribution codes used for payments made by the ERS include:
1—Early distribution, no known exception (in most cases, under age 59½). (Note certain distributions may be subject to an additional 10% tax.)
2—Early distribution, exception applies (under age 59½)
3—Disability
4—Death
7—Normal distribution
G—Direct rollover of a distribution to a qualified plan, a section 403(b) plan, a governmental section 457(b) plan, or an IRA.

Account Number: A unique number for each ERS 1099-R Form that helps identify duplicate forms if you request a reprint.
We have scheduled dates and times for upcoming ERS counseling appointments for Oahu members who are retiring from March 1, 2020 through August 1, 2020. Neighbor Island members may contact our island representatives for an appointment.

At the appointments, we will help you complete your retirement application, copy and return your proof documents, and provide counseling on your ERS pension benefits. Together we will review your ERS Estimate Letter that is based on your retirement date, your service and salary history and your proposed beneficiary. We will thoroughly explain the retirement options available and answer any questions you may have about beneficiary benefits, refunds of contributions (if applicable) and taxability of payments.

We have a number of members walking into our office without an appointment to file their retirement application. Members are unprepared to submit their documents and, as we do not have their ERS Estimate letter prepared, we are not able to fully counsel members on their benefits. In many cases, members have to return to complete the application process. For this reason, we request that you schedule your appointment early so that we will have time to review your records and have the Estimate letter prepared for your appointment. We encourage our members to bring their spouse and/or significant other, as well as their financial advisor to their filing appointment, if desired.

Plan ahead and contact our office to schedule an appointment. Do not wait for the last day to file your application. Note that there is no penalty to change retirement date within the 150 days of filing.

The upcoming session dates are listed below: appointment times are 8:00 a.m., 9:15 a.m., 10:30 a.m., 1:00 p.m., and 2:15 p.m. at the Oahu ERS:

Contact our office at (808) 586-1735 or you may also visit our website for more information on the appointment schedule at http://ers.ehawaii.gov. under Members> Retirement Planning.

All sessions are held from 11:30 a.m. to 12:30 p.m. at ERS in the City Financial Tower, Suite 1400 (14th floor). Please register to attend a session by calling our office at 586-1735 at least one week prior to the session. Each session is limited to forty (40) members. There is also limited validated parking in our building.
Attention Medicare Retirees and Spouses: Medicare Part B Premium Reimbursements for 2020

For 2020, Medicare is once again charging different Medicare Part B premiums with a new standard of $144.60 per month. Please determine which of the following categories you fall into and your next steps:

1. Your and/or your spouse’s (collectively, “your”) 2019 Medicare Part B premium reimbursement (Reimbursement) from the EUTF was equal to or greater than $135.50 per month. The EUTF will automatically adjust your 2020 Reimbursement to the 2020 standard amount ($144.60). **You do not have to do anything.**

2. Your 2019 Reimbursement from the EUTF was less than $135.50 per month. The EUTF will not change your 2020 Reimbursement to the 2020 standard amount. You must submit a copy of your Social Security Administration (SSA) letter or indicating your 2020 Medicare Part B premium to receive the correct Reimbursement; otherwise, your 2019 Reimbursement will continue into 2020.

3. Your 2020 Medicare Part B premium is greater than the 2020 standard amount ($144.60). You must provide EUTF with a copy of your SSA letter indicating the higher Medicare Part B premium to receive the correct 2020 Reimbursement. You have up to two (2) years to submit a copy of your SSA letter or Centers for Medicare and Medicaid Services invoice to receive proper Reimbursement.

If the EUTF reimburses you an amount which is more than what you are paying, you will be subject to collection of the overpayment and it may affect future Reimbursements.

Managing Multiple Medications

CVS has two programs to conveniently help you manage your multiple medications: ScriptSync and Multi-Dose Packs (MDP).

ScriptSync coordinates your prescriptions by synchronizing them for pick up at the same time at any CVS pharmacy. The initial coordination may involve the pharmacy prorating your copayment for prescription(s) with less than a 30-day fill. You would then pay the lesser of the prorated copayment and the cost of the drug.

If you are having trouble sorting your medications, sign up for a multi-dose pack (MDP). A MDP sorts your medications by the time of day that they need to be taken (e.g. morning or night). A box contains a 30-day supply and can be delivered to your home or local CVS pharmacy at no added cost.

To sign up for ScriptSync, talk to your local pharmacist. To sign up for MDP,
Whether you plan to retire in a few months or a few years from now, sign-up for our pre-retirement health benefits workshop and learn about EUTF retiree health benefits. Topics covered include:

- Dependent eligibility
- Health plan option
- Medicare
- Differences between active employee and retiree plans

To register, email eutf.outreach@hawaii.gov. Space is limited and on a first come, first served basis. Attendees must coordinate to attend the workshop on their own time.

For more health and well-being resources, visit hmsa.com/eutf and click Member Resources. You’ll find information on preventive care, health improvement programs, health education workshops, health coaching, and discounts on health-related products and services that you can use to improve your overall health.

HMSA Members

Having friends and family over for the holidays? Remember to take care of yourself—too. According to the National Alliance of Mental Illness, more than 64% of people are affected by the holiday blues. Here’s how to feel better.

Learn to say no. Friends and relatives will understand if you can’t make it to every gathering. Saying no to a few events can help you ease some stress.

Keep moving. Your to-do list may be long but don’t forget to keep moving. Spend 10 minutes on the treadmill or park a little farther from the store to get a few more steps in. On days you have more time, walk or jog in your neighborhood.

Get help if you need it. If you’re feeling persistently sad, anxious, or stuck, don’t wait to act. With HMSA, you can call Beacon Health Options at 695-7700 on Oahu or 1 (855) 856-0578 toll-free for a referral to a behavioral health professional.

Kaiser Permanente Members

Many people experience feelings of anxiety, depression, or other mental health issues during the holidays. However, it’s possible to enjoy the holiday season while keeping your health and well-being top of mind. Mental health conditions are common and treatable and some are even preventable. With appropriate care and resources, many people can and do recover. If you or someone you know has mental health concerns, remember you’re not alone, and there’s help.

Kaiser Permanente provides services and resources to support the prevention and treatment of mental and behavioral health conditions. We’ll help you get the care that’s right for you. These include depression and anxiety, psychiatric illnesses, addiction and recovery, developmental disorders, and resources in support of emotional well-being.

Here are a several resources to help you stay mentally, physically, and emotionally healthy this holiday season:

- Call or email your doctor’s office to schedule your appointment.
- Contact Behavioral Health Services by calling 808-432-7600 Monday through Friday 8 am-5 pm.
- Self-refer to see a therapist or counselor and get 24/7 care advice by calling:
  - Oahu: 808-432-2000
  - Maui/Molokai/Lanai: 808-243-6000
  - Hawaii Island: 808-334-4400
  - Kauai: 808-246-5600
- Connect with a Wellness Coach at no charge to get the extra support you need to achieve your wellness goals. Call 808-432-2260, Monday through Friday.

Want more ways to live a healthy lifestyle? Visit kp.org/healthyliving.

Pre-Retirement Health Benefits Workshops

Whether you plan to retire in a few months or a few years from now, sign-up for our pre-retirement health benefits workshop and learn about EUTF retiree health benefits. Topics covered include:

- Dependent eligibility
- Health plan option

For ACTIVE employees

- Medicare
- Differences between active employee and retiree plans

To register, email eutf.outreach@hawaii.gov. Space is limited and on a first come, first served basis. Attendees must coordinate to attend the workshop on their own time.

**DATE** | **ISLAND** | **LOCATION** | **TIME**
--- | --- | --- | ---
1/21/20 | Oahu | EUTF Office | 11:00 – 12:00 pm, 12:30 – 1:30 pm
1/28/20 | All | Webinar* | 11:00 – 12:00 pm, 12:30 – 1:30 pm
2/20/20 | Oahu | EUTF Office | 11:00 – 12:00 pm, 12:30 – 1:30 pm
2/26/20 | All | Webinar* | 11:00 – 12:00 pm, 12:30 – 1:30 pm

WINTER 2019

Ask ERS
Answers to some frequently asked questions:

Q: I am a former employee and left as a vested member of the Hybrid Plan. I read I would be able to get a refund of a “hypothetical balance.” What does that mean?
A: Vested members of the Hybrid Plan, who are no longer working in a job that requires ERS membership, may request a withdrawal of their accumulated contributions and be paid a hypothetical account balance. The hypothetical balance includes an additional 50 percent of accumulated contributions (member before July 1, 2012), or 20 percent (member who started after June 30, 2012). A vested member who withdraws their accumulated contributions would forfeit ERS membership and eligibility for a retirement benefit. If the former member later rejoins the system, the employee would be given a new start date and would join the appropriate ERS retirement plan in effect at the time.

Q: A loan or rental housing company requires me to provide verification of my pension. How do I request it from the ERS?
A: You may call (see ERS numbers in the left column), or submit your request to dbf.ers.sss@hawaii.gov. ERS mails the letter to your address on file. If the lender requires the information be submitted directly from the ERS, a verification form must be submitted with your authorization for release of information. The lender can mail or fax the request and a copy of the form to 808-587-5766. Completion of requests takes up to five business days. We do not email your pension information, and will not release information to a third party without your written authorization.

UA ‘IKE ANEI ‘OUKOU?
DID YOU KNOW?

The most popular dates for retirement are June 1, July 1 and Dec. 31. A total of 719 first-time checks were processed for retirements on Dec. 31, 2018. For June 1, 2019 retirements, 298 initial payments were made, and 212 for July 1, 2019 retirements.
